***Examiner's Statement of Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The art of record considered as a whole alone or in combination neither anticipates nor renders obvious, in combination, a wrench and a wrench stop comprising: an elongated shank having at least one gripping end having opposing sides, the gripping end being adapted for gripping a fastener, the shank being turned in order to apply torque for tightening and loosening the fastener; a rigid circular plate removably attached to one of the opposing sides of the gripping end in order to prevent the gripping end from slipping past the fastener, the plate having a hole defined through the center of the plate adapted for extending around a shank of a bolt or stud; and a toothed ring coupled to the rigid circular plate, the toothed ring having a diameter smaller than the circular plate and defining a hole aligned with the hole of the circular plate; wherein the circular plate is magnetized, together in combination with the rest of the limitations set forth in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alvin J Grant whose telephone number is (703) 305-3315. The examiner can normally be reached on Mon-Fri 8:00-4:30.
